

KEY CONSIDERATIONS

LANDSCAPE AND VISUAL ASSESSMENT

The proposed site is located within the boundary of Moray Council's designated Spey Valley Special Landscape Area (SLA). As the development will result in changes to the landscape, it is important that we examine and consider any potential effects on the land, views and visual amenity experienced by people living in and visiting the area.

Site location

Proposed layout

The visualisations prepared for this event are indicative, based on early design work and will be subject to change in response to developments in design, feedback from the public and other stakeholders. The potential to mitigate adverse landscape and visual effects will continue to be explored through careful siting and design, ensuring for example that screening and infrastructure materials and finishes are specified to help match the development with its surroundings.
